

## **Lesson 1: Climate Changers**

### **Class discussion – Student Worksheet**

1. What is one thing you learned today that you want to share with others?
2. What is one question you have about climate change?
3. Will fossil fuels last forever? What will we use when they are gone?
4. Who do you think can solve climate change?
5. How has climate change affected the community you live in?
